STILL A MYSTERY

How Joseph Taylor Came to His Injuries Thursday Afternoon.

IN AN UNCONSCIOUS CONDITION

And Little Hope Is Entertained for His Recovery—A Young Man of Wide Acquaintance All of Whom Deplore the Sad Affair.

Joseph Taylor, the young man who was found unconscious by the roadside, just south of Warsaw, Thursday evening, is still lingering in a precarious condition and was somewhat worse this morning. No hopes whatever, are maintained for his recovery. His left side is entirely paralyzed and he has scarcely shown any signs of consciousness since the accident occurred. He was so much weaker this morning that the three doctors, who are attending him, have given him up.

The mystery which surrounds the strange occurrence has not yet been solved and should the young man never revive it will probably always remain as such.

The young man has a wide circle of friends throughout the county. He is the son of Dennis Taylor, and a cousin of Miss Myrle Taylor. He is a man of exemplary habits, was well built physically and just in the prime of manhood. All these facts lend a touch of sadness to the tragic affair and all hearts go out to the young man and his family in their sad affliction.

LATER—Word has just been received that the young man died about noon today.

A FORMER NEIGHBOR

Speaks in Complimentary Terms of Mr. R. A. Powelson.

The following is from the Dresden Transcript of the 31st inst., and refers to the Republican candidate for probate judge in this county, for whom the people are asked to vote on next Tuesday. It says:

"While it is the desire of the Transcript not to meddle in the affairs of our neighbors over in Coshocton county, we cannot refrain from giving publicity to the sterling qualities of one man in particular on the Republican ticket in that county. Of course were we and the people of Dresden not familiar with that man our interest in his election would be no more than for any other stranger. We refer to R. A. Powelson, a former resident of Dresden, who is the candidate for probate judge. As a lawyer and safe counsellor none stood higher with the Muskingum county bar. As a citizen and neighbor he was preeminently without a peer. While conservative, he was progressive in that degree that made him a safe man to follow."

ELECTION RETURNS

Will Be Shown on a Screen in Front of The Age Office.

On next Tuesday night complete election returns will be flashed from a stereopticon to a screen in front of THE AGE office. This will include the returns from all over the United States, from Ohio and from Coshocton county by townships.

The returns from the several townships of Coshocton county will be quite interesting, in view of the close contests on the county ticket.

THE AGE has contracted with Mr B. L. Shaw to show these returns with his fine stereopticon, and between bulletins he will entertain the crowd with innumerable pictures.

Everybody is invited to join the crowd and see the election returns and the pictures. No doubt a great many ladies will be present.

LET US ALL UNITE.

The greatest responsibility devolving upon an American citizen is that which will be exercised next Tuesday. It is the right of suffrage. It is the duty of every voter to exercise that right.

Never before in our history was the choice between parties plainer than it is today. Each party stands upon its record. The records are their respective platforms—prosperity and progress on the one hand, industrial distress and retrogression on the other. Every intelligent voter knows which party brought on distress by national legislation, and which restored prosperity.

With recent history furnishing such issues of vital importance to the common welfare and to all our homes, the duty of the voter is plain.

Vote the Republican ticket for member of congress, state and county offices, and thereby give the greatest possible indorsement to this golden era of prosperity and progress.

There never was a better ticket put up in this county than that nominated by the Republican convention. Every man on the list represents the highest and best type of citizenship. That ticket stands for good, clean, economical home government. The election of that ticket would give the taxpayers the benefit of minority representation, the wisdom of which is almost universally recognized.

There could not possibly be any mistake in voting for R. A. Powelson for probate judge, John W. Stanton for commissioner, James R. Johnson for clerk of courts, Leander Swigert for infirmary director and Dr. J. C. F. Hutton for coroner.

The Republicans should all stand together for that ticket. Democrats should feel it their duty to help us have minority representation in this county. This is a Democratic county. We acknowledge that. In case our candidates shall be elected this year, we will give credit to the better element of the Democratic party for helping us to bring about such a desired result in the interest of good home government.

Let us all unite—Republicans, Democrats, Prohibitionists and people of all parties and factions—for prosperity and progress, for minority representation and good government.

FROM THE FAR WEST

A Coshocton Boy Writes Entertainingly of What He Sees

Samuel Coe, son of E. V. Coe, and a former Coshocton boy, is learning something of life in the western states and along the Pacific slope. He spent several months in Tucson, Arizona, working on a ranch a part of the time. He is now located at San Francisco and writes some interesting letters to his relatives here. THE AGE is permitted to publish a part of one dated at San Francisco and received recently. It reads:

"Yesterday we went out to the Cliff house and enjoyed the sights very much. The fog was quite dense but not too heavy to prevent our seeing the seals on the large rocks just out from the Cliff house. The wind was blowing unusually strong and the waves were splashing as high as 50 feet. We also saw the life saving crew and their boats. I walked down to the wharf and enjoyed seeing and learning something about the large vessels. Out in the bay stood the battleship "Oregon" in all its grandeur, and not far away the "Boston" was anchored. Near one of the piers stood the "Sierra," a fine looking vessel, loaded and prepared for an ocean voyage. She sails next Wednesday and if I am here until then I am going through that vessel for it is one of the finest that lands here. I will try to get an idea of the mechanism and describe it to you in my next letter. Near the Sierra was the ship which makes the fast trip from here to San Diego and return. Another vessel in the harbor was the "Crown of England," and iron clad, which was being repaired.

"I think I will go through the government mint tomorrow and it being the largest mint in the United States you will enjoy reading about it. Just to give you an idea of San Francisco I will give you a few statistics. It has a population of 370,000. there are 125 miles of paved streets, it has 49 banks, 15 theaters and 300 churches, there are 28 cable and electric railroads. 24 parks and 26 hospitals.

"I was talking with a man from Alaska the other evening and he said things were very quiet at Seattle. The rainy season causes business to slacken."

In conclusion he says "Now don't take any rubber money, take good care of yourselves and don't write more than once a month as the mail men are very busy."

"With love to all,

SAM."

ELECTION RETURNS.

Citizens Telephone Company Will Collect And Distribute The Results.

On next Tuesday evening the election returns of the county will be collected by the Citizens Telephone company and distributed to each of the exchanges throughout the county. While the returns are coming in, all conversation between private parties will be shut off and all information will be given out from the central office. The clerks of election in the various townships will send in the returns to the nearest central office as soon as the count has been made, and from there they will be sent in to the Coshocton exchange.

A Surprise Party.

Mrs. W. Neldon was very much surprised last Thursday evening when several of her friends came walking in without an invitation, it being her 21st birthday anniversary. The evening was spent in games and other amusements. A bounteous lunch was served at 12 o'clock. The guests were Mrs. Minnie Clark, Della Leech, Zura Leech, Nell Darling, Mabel Maxwell, Grace Maxwell, Myrta and Mayme Neldon, Bessie Crawford, Frankie Crawford and Mabel Sharples, Messrs. James Clark, Charley Eodsley, Frank Leech, Claud Eavwell, Prin Walker, Dick Walker, Lemon and Ward Bowers, Russel Darling, Henry Lower and Ed. Dickey.

IN WOMAN'S REALM.

An Interesting Report From A Coshocton Delegate to the FEDERATION OF WOMAN'S CLUBS

What The Woman's Clubs of The State Have Done And Are Doing. Echoes From The Toledo Meeting Last Week.

Following is a synopsis of a report made by Mrs. James R. Johnson, at the meeting of the Woman's club held Wednesday afternoon, regarding the meeting of the Ohio Federation of Woman's clubs, held in Toledo last week. Mrs. Johnson talked entertainingly and her observations will be of interest to all club members:

"The first duty of the club delegate after reaching Toledo was to present her credentials, register and receive her badge, which was an open sesame to all the courtesies the city and club women could offer. The Valentine theatre, where the sessions were held, is conceeded by all to be the most beautiful between New York and Chicago. It is luxuriously furnished and decorated; the designs in carpet, curtains and all the finishings being the fleur-de-lis in gold. From the stage were suspended, by invisible wires, eight immense floral balls symbolizing the eight years since the organization of the state federation. The electric lights from these and innumerable Japanese lanterns made a scene more like fairy land than reality.

On Wednesday afternoon at three o'lock, the convention was formally opened by our president, Mrs. Hopley, who seemed to have won the love and devotion of every woman in attendance. The music throughout the convention was furnished chiefly by the Eurydice club, a chorous of ladies led by Mrs. S. M. Jones, wife of the mayor of the city.

The convention continued through out Thursday and Friday and was attended by crowds of people. The speeches and papers were of great interest to all intelligent, progressive, thinking people, whether club members or not. One afternoon was given to the women of the press, presided over by Miss Amos, of the Sidney Daily News. The press women sustained their reputation for mental alertness The "Symposium on the Ideal Twentieth Century Women" was participated in by ten women of the foregoing type. The speech by Mrs. Porter, of Troy, on "The Housewife," was one sincerely appreciated by all busy housekeepers, and especial credit was given Miss Helen Curtis, of Cincinnati, for her address on the "Value of voice culture", and her charming rendition of the little poem, "The Birth of Oratory." But in the president's address was the keynote struck—and in this was found the answer to the question so often asked, "What is the good of Women's clubs? What are they for, and what do they do?" Mrs. Hopley gave a comprehensive account of the enthusiastic work of all the clubs in Ohio, in which the Woman's club, of Coshocton was honorably mentioned. The secretary announced that 33 clubs have been added to the Federation during the last year, and its growth has been remarkable under Mrs. Hopley's administration, all of which was greeted with the warmest applause. An affecting moment was when Mrs. Hopley said farewell, calling to the platform and introducing her successor, Mrs. Samuel Sneath, of Tiffin. Mrs. Sneath was cordially greeted and both ladies were presented with arm boquets of chrysanthemums. The hospitality of the Toledo ladies could hardly be surpassed. They planned for us the brilliant reception of Wednesday evening, given by the Eurydice club, with the assistance of talented soloists: also a steamboat ride down the Maumee as far as Lake Erie, also a visit to the Manuel Training school. Toledo is a city of 180,000 inhabitants and is growing at the rate of 10,000 a year. It is the second railroad center of the United States and the home of Croesus, the fastest horse in the world.

We all came home with a stronger loyalty toward our Federation and a greatly increased interest in the "Golden Rule City."

CARNEGIE'S GREATEST PRIDE

An Incident in the Early Life of the Great Iron Master.

The London Chronicle relates the following regarding Mr. Carnegie. It says:

"Although Mr. Andrew Carnegie is proud of his new title, "LL. D.," he is prouder of what he describes as his "best title of nobility"—a handbill which he has just had framed. He received this patent the other day from an old lady in Dunfermline. It is an appeal for £300 made in the Chartist days to defend his uncle from a charge of conspiracy in holding a meeting that had been dispersed by the sheriff. Mr. Carnegie had another uncle who was a strong political agitator, and of these two and a Republican grandfather the millionaire has been telling stories. He remembers the cavalry parading the streets of Dunfermline to quell riots. When the mob surrounded the town house where the imprisoned uncle was held, he was asked by the provost to appear at an upper window. This he did at 2 o'clock in the morning and delivered a soothing speech. "All my friends," he said, "will fold their arms. Now, walk peaceable to your homes, maintain the peace and obey the laws." Many a noble family, Mr. Carnegie thinks, "might be pushed to produce so good a title to their peerage. It is not a bad foundation that one of our family was in jail for defending the right of public meeting."

Ducked in the Lower Basin.

While fishing in the lower basin, near the trestle, Friday afternoon, M. G. Hack and Edward Reffiley had an experience not altogether to their liking or pleasure. They report that while they were industriously luring the fish with tempting bate their boat suddenly overturned dumping them into the water.

There was nothing left for them to do but swim to shore, and this they proceeded to do getting out safely but thoroughly soaked.

A Mail Sack's Experience.

Thursday morning at Trinway as first No. 21 of the Pan Handle was discharging mail into the receiver, while going at a high rate of speed, a sack of papers, books, etc. got under the wheels of the rapidly moving train, and nothing but scraps of paper and leather were left to show the original condition, and these were widely scattered from the station to the canal.—Dresden Transcript.

A Hallowe'en Party.

Miss Eva McNary entertained with a hallowe'en party Friday evening at her home, on South Sixth, in honor of Miss Anna Fisher, of New Jersey. The guests were Misses Carrie Belle Duncan, Emma and Eva Jacobs, Mary Williams, Louise and Mabel Boyd, Lena Ayres, Isabelle King, Sarah Marshall, Messrs. Stephen Lear, Quincy Almack, Burgess Norris, Ben McKee, Chas. Heiman, Glenn Boyd, Frank Karr and David Jackson.

RIVERS GOT AWAY

A Lively Chase After a Man Badly Wanted.

SHOTS FIRED WHILE ON A RUN

The Man Pursued Took to The Water While The Officers Took to The Bridge and so They Parted—So Goes the Story.

For some time the police have been on the lookout for young Rivers wanted on various charges here and elsewere. He was finally located Friday afternoon at his home in the board of trade second addition, and Policeman Hains proceeded to go after him. Rivers was evidently on the lookout for when Officer Hains advanced he immediately began to retreat. In other words "he flew the coop." Officer Hains called a halt by a number of shots from his revolver. Rivers returned the fire and continued to retreat. The officer pursued but when the Tuscarawas river was reached Rivers jumped in and by wading and swimming reached the other side. The officer was compelled to go around by the bridge and by the time he arrived nothing but the Tuscarawas remained. Rivers got away.

IN THE FIELD OF SPORT

Mr. Valentine's Dogs Make Good Showing at Washington C. H.

Mr. Will Valentine's dogs have been doing some good work at the field trials of the Monongahela club, at Washington C. H., this week. The "Novemoer Field," for November 1, has the following favorable comment on the trials in which Mr. Valentine's two dogs "Avon Pride" and "Avon Spectacles" participated:

"Avon Pride—May.—Starting in a nice, open country, in a rather heavy stubble, it was soon seen that Avon Pride was the better of the two, going with merry action, staying out at his work far the best, and covering his ground in a very proper way. Now and then he would return to catch sight of his handler, but would be off on business at once. May, on the contrary, spent far too much time in running in, though showing much activity in her work. The only point made in their trial was one by May, pointing a rabbit, which she chased when it was put afoot. They were ordered up at 10:02.

Avon Spectacles—Dolly Manners.—Sent away at 11:18, they had made only a short run when Avon Spectacles made game at a fence having abundant cover along both sides of it. She was soon on the other side, flushing and chasing a bevy, then a single, which went to a small tree, Spectacles being inclined to get it. Sent on, she made a false point in a cornfield, a likely place for a bevy. Dolly Manners called up, backed promptly and very stylishly. Dolly was under fair control, was easily the best in range, pace, style and hunting out ground, and besides she finished much the freshest of the two when taken up at 12:00."

Go to the polls and vote next Tuesday and see that your Republican neighbor votes too.

Get out the vote.

On every hand we hear the people expressing the conviction that R. A. Powelson should be elected probate judge as a matter of public necessity. No doubt the people are right about this. When the people so universally agree on a public question, it is safe to assume they are right. Mr. Powelson's legal ability, sound judgment and ripe experience are needed in that office. It is very important.

Get out the vote.

Urge every Republican to go to the polls and vote next Tuesday.

President Roosevelt, of course, is not going to dictate to the arbitration commission in the coal case. He will have nothing to do with its findings. His responsibility ended when the commission went to work. The fact that he brought about the conditions upon which a settlement is to be reached is a big triumph for him and is going to win many votes for his party in the elections next week. Like Clay, President Roosevelt deserves to be known as the great pacificator.

Get out the vote

The Democrat and Standard assumes to be the whole Democratic party of Coshocton county. It makes itself ridiculous by not sticking to the truth. It says: "The Coshocton Age is already talking about the weeping and wailing and gnashing of teeth there will be among Democrats of this county next day after the November election." THE AGE didn't say that of "the Democrats of this county." We said that is what the Democrat and Standard would be doing. We care nothing about the Democrat and Standard's unprofessional act of misquoting another, which is a habit with that paper, but we are indeed sorry to see the distracted organ make itself so ridiculous by assuming to be the whole Democratic party of Coshocton county. The fact is "the Democrats of this county," a great many of them, will be very glad of it if the Republican county ticket shall be elected next Tuesday. They know it is for the best interests of the whole people of the county. And a great many of them will be deserving of credit for helping to bring it about. **Only a very few people, besides the Democrat and Standard, will feel badly over the election of the Republican candidates.**

After the election returns come in, next week, ex-President Cleveland will likely be convinced that the country is not hankering for another lesson in tariff reform.

Get out the vote.

BLOOD WINE
Makes Children Healthy

Children should experience good health in order to grow into strong men and women. People are often sickly and weak because of their frail constitution when children. The body when growing needs all the nourishment it can get, for that reason parents should be doubly careful about their children's physical condition. "Blood Wine" is relished by all children, and there is nothing that will do them as much good. It gives them strength of body and brain. It stirs up the circulation, keeps the stomach in good order and the bowels right. Next time your child is ailing just try "Blood Wine" on it. It contains no wine and is perfectly harmless.

Mr. Michael McCue, of 688 Lakeview Avenue, Lowell, Mass., has a rugged little child who a few months ago was frail and sickly.

This is how it happened:

"My little girl has been ailing for a long time and it gave us the greatest uneasiness for there was no way of compelling her to take medicine. She had been given a dose of some very disagreeable tasting remedy during a previous sickness and from that day she absolutely refused to take any prescription the doctor left for her. Try as hard as we would she could not be persuaded to swallow anything that had a semblance to medicine until 'Blood Wine' was recommended. After much coaxing, she decided it would do her no harm, and once tasted, she has never failed to remind us that it is 'medicine time.' Her strength has come back to her, she is bright and cheerful as a cricket and grows fleshier every day. We are more than happy over her complete recovery and feel that it is wholly due to 'Blood Wine.'"

Every child should take it as a blood maker—a tonic and laxative. Fifty cents a bottle.

Relations Between Uncle Sam and Cuba Harmonious.

MINISTER QUESADA'S STATEMENT.

Reciprocity Treaty a Purely Commercial Convention and Has Nothing to Do With Other Questions—Naval Station at Havana Not Favored by Cuba's President.

Washington, Nov. 1.—[illegible] between [illegible] Quesada, Cuban minister to the United States, said:

"The new famous reciprocity treaty is a purely commercial convention, and has nothing to do with any other political questions which may arise between the two governments, and has absolutely nothing to do with the Platt amendment. The Cuban government has been studying the draft of the treaty submitted by Secretary Hay and he is consulting the different interests in the island and the customs receipts, and in due time will return it with observations and modifications deemed for the interest of Cuba and which at the same time will not hurt the interests of the United States."

Mr. Quesada said that the best of feeling existed between the Cubans and Americans, proof of it being that every steamer arriving at Havana and other Cuban ports brought a great many American investors, who not only were putting money in the island but were establishing themselves there. He spoke of the popularity of Minister Squiers and the gratitude of the Cubans for the United States for services which were rendered. When asked regarding the proposed coaling stations in Cuba, Mr. Quesada said that four days before President McKinley was shot he had, at the instance of Estrada Palma, gone to Canton and secured from the president a solemn promise that while he was chief executive he would not give his consent to the establishment of a naval station at Havana and that President Roosevelt knew of the promise. Continuing, Mr. Quesada said that President Palma never would have gone to Havana the Cuban capital where a diplomatic corps was established while a foreign flag was flying over the city. The minister also said he could not see the necessity for a coaling station at Cienfuegos, which had been recommended by Admiral Bradford of the bureau of equipment in view of its proximity to Guantanamo, which also was recommended as a coaling station.

ON THREE QUESTIONS

Anthracite Commission May Make a Preliminary Report.

EACH ONE OF GREAT IMPORTANCE.

Board of Arbiters Inspecting Conditions Around Wilkesbarre, Returning to Scranton For the Sabbath. Possible Controversy Shut Off by an Agreement Reached by Commission.

Wilkesbarre, Pa., Nov. 1.—The arbitration commissioners arrived here this morning from Scranton and continued their investigation of the collieries. The Prospect colliery of the Lehigh Valley Coal company, located in North Wilkesbarre, first was inspected and a trip to Plymouth and other mining towns in that vicinity made. The commission will return to Scranton in the evening and spend Sunday. Bishop Spalding will preach in the cathedral on Sunday in place of Bishop Hoban, whose jurisdiction extends all over the anthracite field excepting the Schuylkill region.

The commission has not yet decided when it shall begin taking testimony. Chairman Gray said it may be nearly a week before the hearings are begun. Recorder Wright sent out letters to 67 individual operators in the coal fields giving them the same privilege of appearing before the commission as the larger operators. It was stated by a member of the commission that the arbitrators will leave either Sunday night or Monday morning for Hazleton, where two days will be spent. The remainder of the week will be taken up by visiting the Panther Creek valley and the towns in the Schuylkill region.

Important action by the anthracite strike commission was taken when it was announced by Carroll D. Wright, the recorder of the commission, that if any award affecting the existing rate of wages shall be made, the award shall be effective from Nov. 1. The action of the commissioners shuts off any possible controversy that either side may have desired to raise. The commission spent Saturday in the vicinity of Wilkesbarre, returning here in the evening.

It is possible that the commission may make a preliminary report on three principal strike questions. They are the increase in wages, a shorter workday, and the weighing of coal. After these have been decided the commission can take up all other questions without undue haste. It is known the commissioners have this feature under consideration, and it is very likely a preliminary report will be made.

Situation in Venezuela.

Willemstad, Island of Curacao, Nov. 1.—One thousand Andino troops from Maracaibo, Venezuela, disembarked at Puerto Cabello and marched at once to Valencia to join the government forces there which number about 1,500 men. They will attack the revolutionists from the rear according to the present arrangement, and the same time that the government forces under President Castro attack the enemy in front. President Castro has left La Victoria and gone in the direction of Villa de Cura. He left only 1,700 men at La Victoria. A report has reached here that forces under General Gomez have been routed with considerable loss by insurgents near San Mateo. General Gomez is vice president of Venezuela and has been operating with President Castro.

Workmen Asphyxiated.

Niagara Falls, N. Y., Nov. 1.—By a sudden rush of gas, supposed to have been sulphureted hydrogen, four men were killed and three seriously affected near the Twenty-fourth street heading of the big tunnel trunk sewer. The dead are: Lawrence Fisher, George Rhodes (colored), Hugo Swanson, William Bradish. Thirteen men were working on the sewer. They had started a heading at a new level and had loaded up a blast which was to be discharged. After loading they walked back about 225 feet between the heading and the shaft, but before they could reach the shaft four of the men fell to the floor of the tunnel, the others with difficulty making their escape.

In Mrs. Maybrick's Behalf.

St. Louis, Nov. 1.—A petition with the signatures of over 1,000 persons asking the release from imprisonment of Mrs. Maybrick, convicted on the charge of murder by the British government, is about to be sent to King Edward at London. The petition was originated in St. Louis under the auspices of the St. Louis society of St. George, an English organization. It was passed on to other cities and has returned here with over 1,000 signatures. In 1888 Mrs. Maybrick was convicted of murdering her husband by poisoning.

Sensational Verdict.

Boulder, Colo., Nov. 1.—The coroner's jury in the case of Mrs. Nannie M. Baird, who died suddenly Oct. 15, returned a verdict charging that her death was due to poison alleged to have been administered by her husband, Dr. Rudolph Baird, or by some one with his knowledge. Dr. Baird is one of the most prominent physicians of Boulder.

Postmaster and Daughter Arrested.

Nashville, Nov. 1.—James Fenn, postmaster at Fountainhead, Sumner county, Tenn., and his daughter Belle, his assistant, have been brought here under arrest, charged with tampering with the mails.

Cleveland Boy Lost.

Chicago, Nov. 1.—"Buddy" Ryan of Chicago won the decision over "Kid" Broad of Cleveland in a six round contest here. Ryan won on points alone and had but a slight shade the better of the fighting. Both men were in excellent condition and put up a remarkably fast and clever bout. Ryan took a slight lead in the first round. He was a shade faster than Broad and scored the greater number of points. The second round was similar to the first and ended with Ryan a little in the lead. The third round was even. The next three rounds were Ryan's by a close decision. Both men put forth every effort to secure the advantage, but Ryan was faster on his feet and managed to hold his small lead until the end. Neither man was damaged to any extent.

Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at C. E. NERVES ALL UNSTRUNG.

That describes the condition exactly. Children's noise, street sounds, little things that usually pass unnoticed annoy. A sudden sound, a call, you jump; a harsh word, a crying spell. The sleep is full of jerks and starts; trouble fills your dreams; you do not rest. Tired you go to bed, weary you rise. Its the unstrung nerves, weak, shattered, over sensitive, on edge. They need rest, quiet, strength, steadiness. Well known people in your own city give you the cure in Dr. A. W. Chase's Nerve Pills—the most remarkably successful nerve medicine ever produced.

Mrs. Robert Thornsley of 422 North 11th street, Coshocton, Ohio, says: "That's a great medicine that Dr. A. W. Chase's Nerve Pill I got at C. E. Anderson's drug store. To Arbitrate French Strike.

Paris, Nov. 1.—President Loubet is taking an active part in settling the French coal miners' strike. He held an extended conference with M. Vincent, prefect of the department of Du Nord, who has been acting as intermediary between the strikers and the mine owners in that department. The mine owners have given the prefect the names of four persons who are to represent them in a conference with an equal number of strikers. In a semi-official statement given out President Loubet expresses hope for an early settlement of the strike and declares that this would be a political accomplishment beyond precedent.

A Fierce Fight.

Manilla, Nov. 1.—Twenty members of the native constabulary of the island of Negros defeated 70 ladrones near Turica, Negros. The ladrones were intrenched and it took an hour's fighting to dislodge them. Six of the bandits were killed and several of them were wounded. Their leader, a man named Delmacio, was wounded and captured. Two guides in the employ of the constabulary were killed.

Colossal Steel Plant.

Great Falls, Mon., Nov. 1.—A steel and iron industry will be begun in the west which will rival anything of the sort in the world. Mr. Larson says: "I am favored with the custom of farmers within a radius of 30 miles, to many of whom I have supplied Chamberlain's Remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps 60. Of these within the past twelve months, no less than 14 have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by C. E. Anderson, Forbes block.

GREAT ALARM

Over the Violent Eruption of Santa Maria Mountain.

Tapachula, State of Chiapas, Mexico, Nov. 1.—There is continued alarm here over the eruption of Santa Maria mountain in Guatemala. For 52 hours the city was almost totally dark. Surrounding coffee planters have experienced great loss and across the line in Guatemala many valuable properties have been destroyed. Tacano volcano, near at hand, shows no signs of breaking out. There has been no loss of life. Thieves have taken advantage of the terror to steal cattle from ranches. On the coast the ashes fell, covering the decks of ships in Port San Benito. Subterranean rumblings have been almost constant here. Telegraphic communication has been re-established with the federal capital and relief is being felt. Business is depressed. Ashes fell abundantly at Palenque.

May Attack the Will.

Washington, Nov. 1.—The probate court here, upon the application of an alleged creditor, directed the filing of the will of the late Colonel Nathaniel McKay, who died quite suddenly some months ago at Atlantic City, N. J. Under the terms of the will, after a few personal bequests, the entire estate is left to Mrs. Mabel Grace McKay, whom the decedent married not long before his death, and Mrs. Elizabeth Wiedersheim and Mrs. Harriet A. Knisley, his daughters, jointly and equally. The attorneys for the daughters expressed a willingness that the will should be filed, but the attorney for Mrs. McKay objected on the ground that there was a question as to the legal residence of Colonel McKay at the time of his death, and that this might be an important consideration in the settlement of the estate. Colonel McKay had claimed a residence in Oklahoma. It is said that Mrs. Jennie Pope McKay, a former wife, will contest the will and attack the validity of a divorce obtained by the decedent. Quite a large amount of property is involved.

Grave-Robber's Confession.

Indianapolis, Nov. 1.—John McEndree, the alleged leader of a gang of white grave-robbers, was arrested in Martinsville and held until Detective Asch of this city could go after him. The detectives claim he is implicated equally as much in the grave-robbing business as Rufus Cantrell, Sam Martin and other colored ghouls now in jail. McEndree was brought here, and when questioned by the detectives confessed that he had been in the graveyard robbing business. When asked how many times he had been out with a gang, he said: "Oh, we made about 20 trips." He said he got bodies from different cemeteries about Indianapolis and disposed of them at three of the local colleges.

President Castro Apologized.

Paris, Nov. 1.—Official details have been received at the foreign office in the matter of the apology exacted from Venezuela for the recent illegal arrest at Carupano, Venezuela, of the local manager of the French cable company and the French consular agent at that port. The French charge d'affaires at Caracas reported the "indignity" to the foreign office here and the commander of the cruiser d'Estre was at once ordered to demand redress. General Velutini, special representative of President Castro, repaired on board the cruiser and apologized and expressed regrets before witnesses. This was deemed satisfactory and the incident was closed.

INNING OF DEFENSE.

Progress Made In the Molineux Trial at New York.

ACCUSED MAN TELLS HIS STORY.

Strenuously Denied All Knowledge of the Crime and Withstood Well the Ordeal of Cross-Examination—Point Scored by the State Through Adroit Maneuvering of the Prosecutor.

New York, Nov. 1.—The defense is now having its inning in the celebrated Molineux trial. The accused man, Roland B. Molineux, was called as first witness. In response to questions of his counsel, former Governor Black, he declared his absolute innocence of any part or knowledge of the crime, and categorically denied that he had written the Barnet and Cornish letters; that he had ever made cyanide of mercury, or that he had ever seen the silver bottle in which the poison was sent until it was exhibited in court. He admitted having written and signed with his own hands one letter asking for a certain patent remedy, on the famous blue interlaced crescent paper, identical with that on which the Cornish letters were written, and said that he procured the paper at the Waldorf-Astoria hotel. His bitter differences with Cornish, which resulted in his leaving the Knickerbocker Athletic club, were related by Molineux without any apparent reserve.

The witness sustained unmoved a rigorous cross-examination by the district attorney, answering all questions as to his past life, his relations with Cornish and Barnet, and the efforts he and other members of the club had made to discover any one who had a common enmity to the two named. The feature of the cross-examination was Mr. Osborne's successful effort to place before the jury the substance of the testimony given at the first trial by Mamie Melando and Detective Farrell, but excluded by Justice Lambert. This was accomplished by the experiment of framing a series of questions relative to statements purporting to have been made by the witnesses outside of their testimony, but practically covering every essential feature of it, to which frequent and vehement objections were made by Mr. Black. Throughout his examination and cross-examination Molineux preserved an unruffled and confident demeanor, answering all questions promptly and even smiling occasionally when replying to his own counsel.

The defendant gave his age as 33 years, told the date of his arrest and the length of time he was in the tombs and in Sing Sing prison. He said he took a course in chemistry in Cooper Union after he left school. When he was 16 years old he went to Utah and Mexico. He was co-respondent in a divorce suit and it was thought better he should leave the city for a while. He returned to New York a year later and got employment in his father's firm, Devoe, Reynolds & Co., paints and colors. He continued with that firm until he went to Newark as the superintendent of the color factory of Morris Herrman & Co. He was a member of the Knickerbocker Athletic club for two years, resigning in 1897 when he went to the New York Athletic club. He was a member of the governing board of the Knickerbocker Athletic club. Witness said Cornish was employed at the club as manager of the baths, and as his management did not meet with Molineux's approval the latter filed a formal complaint. This led to an estrangement between the men and resulted in Molineux leaving the club.

Chauffeur Soaked.

New Haven, Nov. 1. — Herbert B. Marble of New York city, in the superior court, was found guilty of manslaughter and sentenced to one year in jail and fined $1. While driving an automobile on the Wellingford turnpike Marble struck a vehicle occupied by John Molz and his son. The former was thrown out and received injuries from which he died later. Mr. Marble's attorney asked Judge Case to set aside the verdict on the ground of lack of evidence, but the court sustained the finding of the jury. Judge Case said that he was sorry for the young man, but under the circumstances he said that his recklessness and negligence should not go unpunished. Marble was a chauffeur in the employ of a New York automobile manufacturer.

MISS MONIE BOWEY,

No. 38 Perry Street, DETROIT, MICHIGAN.

A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine.

MONIE BOWEY.

Miss Monie Bowey.

WINE OF CARDUI is one medicine that should always be kept on hand in every home for immediate use when female weakness first makes its appearance. Miss Bowey's painful and dangerous accident would not have resulted so seriously had she taken Wine of Cardui promptly.

Wine of Cardui makes women more womanly by curing their weakness and making them stronger. Wine of Cardui cured Miss Bowey. As a medicine for all women in every trying period of their lives can you think of a better medicine for yourself, your sister, your daughter or your mother? Can you think of a more acceptable present to give your friend than a bottle of this medicine which will bring her health and happiness? You are suffering? Your duty is to rid yourself of this pain. If your daughter, mother, sister or friend is sick and in need of relief, your duty is equally great to them. Many women, now well, owe their lives to friends who brought them Wine of Cardui.

Wine of Cardui is adapted to women at any age in any walk of life. For the working woman it gives her strength for her tasks and better treatment than a doctor for very small cost.

Your druggist will sell you a $1.00 bottle of Wine of Cardui. Secure the medicine today. Take it in the privacy of your home. Relief will come to you as surely as you take it.

Looted by Thieves.

Ironton, O., Nov. 1.—The store of E. R. Willard and Company at Steece, this county, used as the postoffice, was burglarized. The robbers completely wrecked the safe, securing $200 cash, $35 stamps and $4,000 in government bonds, notes and insurance policies. The robbery was not discovered until the office was opened. The money belonged jointly to the postoffice and the store. The robbers left no trace.

Confessed the Killing.

Ironton, O., Nov. 1.—Phillip Nagle of Chaffins Mills, Scioto county, occupies a cell in the Lawrence county jail, the confessed murderer of William Wade of Hecla, this county, whose body was found last Monday at Upper Sandusky, O., thrust into a culvert under the railroad tracks.

STRICKEN WITH PARALYSIS.

Henderson Grimett, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—George R. McDonald, Man, Logan county, W. Va. Several other remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known however, as a cure for rheumatism, sprains and bruises. For sale by C. E. Anderson, Forbes block.

Strike Off.

Marietta, O., Nov. 1.—The Marietta typographical union accepted a proposition submitted by the Marietta Register company, and the strike, which has been on since last December, is declared off on that newspaper.

Coal Famine In the South.

Knoxville, Nov. 1.—Coal operators of this section believe a coal famine of serious proportions threatens Tennessee, North and South Carolina, Virginia and Georgia. The Southern railway seems helpless to relieve the situation. President Samuel Spencer of the Southern railroad, who is here, admits that the road is powerless, but lays the blame on the locomotive and car works. He says the Southern has orders for 100 engines and 2,750 coal cars, but can't get any of them until Dec. 1. The retail price of soft coal in Knoxville is $5 per ton.

President Hunting.

Washington, Nov. 1. — President Roosevelt, accompanied by Secretary Root, Secretary Cortelyou and Surgeon General Rixey of the navy left here on a special train for a gunning expedition near Manassas, Va. The open season for wild turkey and quail begins in Virginia today. The party will shoot over the farm of Representative Rixey of Virginia, a brother of Surgeon General Rixey.

RECORD SMASHED.

The Mighty Cresceus Goes Two Miles In Wonderful Time.

Memphis, Nov. 1.—Cresceus, the great son of Robert McGregor, made good claim to championship honors Friday afternoon at the driving park in a remarkable exhibition of speed and stamina. The horse was sent against the world's two-mile record of 4.30¾ held by Onward Silver and without apparent effort completed the circuit twice without a break in 4.17 flat, chipping 13¼ seconds off the former record. Both the horse and Mr Ketcham, who drove him received an ovation from the large crowd present.

Business Conditions.

New York, Nov. 1.—R. G. Dun & Company's weekly trade review says: Speculation waits upon politics, but legitimate business is not disturbed by the approaching election. New labor controversies have been promptly settled by advancing wages and the gradual improvement in supply of coal has reduced prices and restored activity in manufacturing. Complaints are increasing as to the tardy movement of freight, miles of cars being stalled by the lack of motive power and many railroads refuse to accept further shipments until the blockades are relieved. Lower temperature has stimulated retail sales of seasonable merchandise, but frost comes too late to seriously injure agricultural products. Liberal consumption sustains quotations in most lines, domestic demands being supplemented by the large exports.

Couple Charged With Murder.

Boston, Nov. 1.—Daniel Sullivan and his wife, Mary, were arrested in Charlestown charged with the murder of Jeremiah Mahoney in the tenement house where the Sullivan and Mahoney families live. The men up to three days ago had been good friends. At that time they had trouble over who should clean out the cellar. It is said the two men met in the lower hallway and fought. Armed with a stove-lifter and a flat-iron Mrs. Sullivan, it is alleged, joined her husband in his attack on Mahoney. The police were summoned and Mahoney was taken to a hospital, where he died while an operation was in progress.

Sympathy Strike.

Springfield, Ills., Nov. 1.—Five hundred employes of the Wabash shops here went on strike in sympathy with the boilermakers, who struck a week ago for an uniform increase to 30 cents per hour in all departments. Those who quit work include blacksmiths, machinists, tinners and pipemen. The strike is general over the Wabash system and includes the shops at Fort Wayne, Ind.; Decatur, Ills., and Moberly, Mo.

Lynched by Farmers.

Guthrie, O. T., Nov. 1.—Residents of Caddo county in the vicinity of Swan Lake have discovered the body of a man swinging to the limb of a tree, and it has developed that he was a member of a gang of horsethieves that terrorized that portion of Oklahoma for several months past. It is supposed that he was captured by farmers and lynched. All efforts to identify the man have proved futile.

Wool Conditions.

Boston, Nov. 1.—The wool market is active and strong. Large sales of medium fleece wools have been made at slight advances. All medium wools are tending upward, owing to the high prices quoted on competing South American wools. Fine wools are strong but show no material advance. The whole market is firm, however, and the predictions are for higher prices with the turn of the year.

Don't Treat Symptoms

Go after the cause. Stimulants and cathartics will never cure indigestion. They may temporarily relieve the system but the next meal clogs it again. The food should be digested. The nourishment—health—strength it contains should be appropriated—absorbed by the system.

Children Thrive on Kodol

KODOL

purifies, cleanses, strengthens and sweetens the stomach. This new discovery digests all classes of food and assists the stomach and digestive organs in assimilating and transforming it into the kind of nourishment that is taken up by the blood and fed to the tissues throughout the various organs of the body. Kodol cures indigestion and dyspepsia, thus removing the cause of all stomach troubles. Kodol gives such strength to the body that it is invaluable in all wasting diseases.

"I wish to thank you for what Kodol has done for me," writes Clifton Sirton, Collett, Ind. "It cured me of dyspepsia after everything else had failed. When I tried Kodol it helped me right away. I cheerfully recommend it."

Kodol Digests What You Eat.

REFUSED A HORSE

Because She Insisted Upon Riding as Her Mother Rode.

"It is hard these days," says a popular actress, "to be an old fashioned woman even with the best intentions. I was resting at a rather fashionable little place not long ago and wanted to get some horseback exercise, of which I am very fond. So I went to a pretentious looking livery stable and applied for a horse. The proprietor inquired how I intended to ride. 'As a woman should ride a horse, with a side saddle, of course' I answered. 'Then you can have no horse of ours', was the verdict. 'A side saddle unfits the best of horses for any other use. It's an invention of the devil and as injurious to the woman as to the horse.' All my wiles were powerless to overcome the horse owner's objections and I was forced to forego equestrian pleasure."

They Went Celebrating

A merry crowd celebrated Halloween Friday evening by chartering a street car and driving to the home of Mrs. George Noscar on the Warsaw road, where they enjoyed a sumptuous supper and spent a delightful evening. Harris Perfection

WE serve you with specialists' perfection. There's a snap and style about Harris clothing that to the craftsman is proof of expertness--telltale of superiority. To the layman it is a mark of distinction that characterizes all the clothing we make--and that is lacking in the clothing he sees elsewhere

It is the specialists' stamp. It is the thing that has lifted Harris garments out of the ranks of commonplace tailoring.

The fall and winter overcoats we're making now furnish splendid examples of the art touch in garment making. Built long and roomy to insure comfort. Made from beautiful vicunas and cheviots.

Some of the fabrics for winter suits are going rapidly. Our friends have drawn heavily upon them. To be sure of a broad range of selection you must be prompt.
